QUICKIE F35

Powerful features. Contemporary style.

User friendly features, economic value and contemporary looks make the Quickie F35 the outstanding choice for those users who require basic powered mobility and portability.

The chair's specification is tailored to offer comfort, safety and accessibility both indoors and out at a very affordable price.

QUICKIE F35

Armrest

Each armrest provides a width adjustment of 3.5 cm (1.5") each side. This allows the standard seat width of 43 cm (17") to be adjusted to a possible 50cm (20"). Height adjustment is achieved using a simple lever, the armrest pads can be adjusted to the desired height ensuring maximum comfort and positioning for the user. The armrest pads can be fixed in two different positions depending on user preference.

Ergonomical armrest

The anatomical shape of the armrest pad helps position the elbow and provides the user with the optimum position for joystick control.

Swing-away and removable footrest

In addition to being removable, the footrest can be swung either inwards or outwards. Thanks to this feature, the length of the chair can be altered without the need to remove the footrests prior to entering small spaces such as lifts.

Removable backrest

Using two simple levers, the backrest can be easily removed for transportation and storage.

Compact folding

After removing the split battery from the two separate boxes and detaching the backrest, the chair can be folded to assist in transportation and storage.

Detachable anti-tip tubes

The anti-tip tubes can be for transportation or to create a shorter chair if necessary.

The footrests can be swung either in or out

Armrests can be adjusted in width, height and depth

Parallel swing-away control box

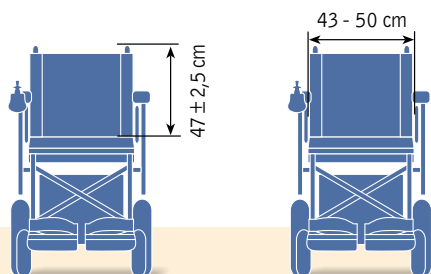

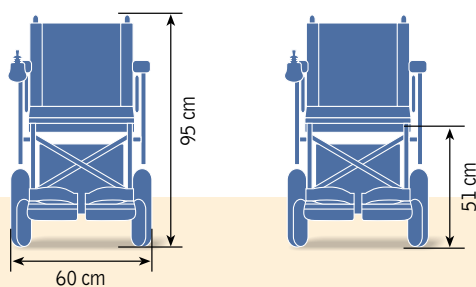

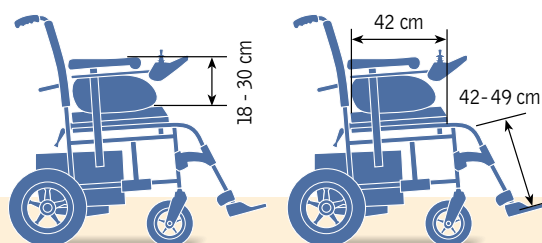

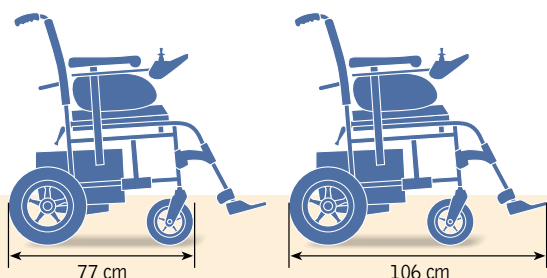

Anatomically designed armrest provides optimum positioning for joystick control

Compact folding frame for easy transportation

QUICKIE F35

SPECIFICATIONS

Seat width:	43 cm (17") (can be increased up to 50 cm (20") through adjusting the armrests)
Seat depth:	42 cm (16,5")
Seat height:	51 cm (20")
